

KP-Songproject – Yes Lord by Jonathan Nelson

The deadline for your participation is Thursday 5th of August at 1pm. Any questions send to kontakt@keniamusikprojekt.de

There are two ways to participate in this project: singing and dancing. When you want to dance, record yourself dancing to this song in a maximum 30sec video. Upload your video via drag and drop here: <https://nc.keniamusikprojekt.de/index.php/s/mjCMmTPsGiY59JN>

If you want to sing you'll find all information in the following description.

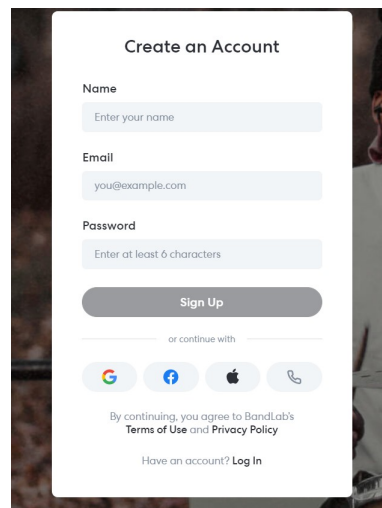

You will need:

- headphones
- camera (or smartphone)
- a laptop, tablet or a smartphone with a good microphone

Audio recording tutorial:

The audio recordings will be done with the online production tool called BandLab. Register with your e-mail, google or facebook at:

<https://www.bandlab.com/sign-up>

After registration open the link:

<https://www.bandlab.com/join/wphhhaf>

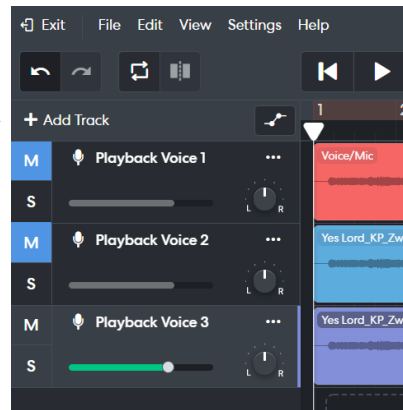

A screenshot of the BandLab interface with several annotations. A red box highlights the 'Record' button (a red circle) with the text 'Record button' and an arrow pointing to it. A white box with a double-headed arrow points to the timeline with the text 'Cursor for scrolling forward and backward in the song'. A white box with a double-headed arrow points to the track controls (mute and solo buttons) with the text 'Mute the tracks you don't need or solo the one you need'. A white box with a double-headed arrow points to the lyrics area at the bottom with the text 'Here you'll find the lyrics'. A white box with a double-headed arrow points to the three voice tracks with the text 'Each of this playback tracks emphasizes one of the three voices. Listen to these by muting or soloing the track and choose the voice you feel comfortable with'. The interface shows three tracks: 'Playback Voice 1', 'Playback Voice 2', and 'Playback Voice 3', each with a waveform and controls for mute and solo.

Adding track:

Add a new track for you

Choose a Voice/Mic Track

Press right click on your added track and rename it with your name.

Recordings

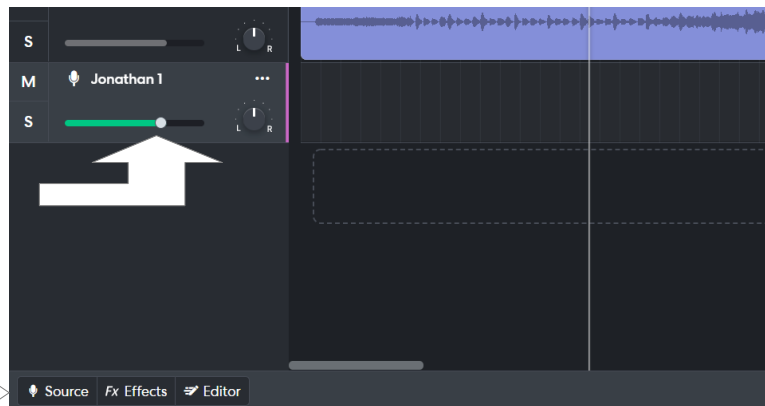

Choose the voice you feel comfortable with and mute the other tracks. At first you should practise your part. After practising you can start recording. Recording in one take can be challenging, just record the parts of the song in separate takes.

Important !!! : when you're recording use your headphones for the playback.

Problem with your audio?

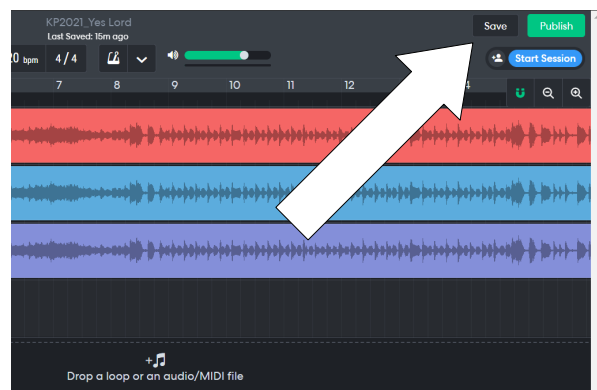

Reduce the volume of your voice:

If no audio signal is coming in check your input device here:

Saving !

Make sure to save before you close your window!

Video

If you want, record a video of yourself singing (max 30sec) and upload it at <https://nc.keniamusikprojekt.de/index.php/s/mjCMmTPsGiY59JN> via drag and drop.

But most important:

Have fun :D
